

THE POWER TO CARE

About us

Driven by a passion for transport and technique. Van der Vlist has defined itself in this way since its establishment in 1930. Over the years, our family business has grown to become one of the European market leaders in the field of logistics.

As a logistics service provider, we are constantly looking for optimal solutions for our customers in a changing world. We do this by using information and communication technology, based on integrity and transparency.

As a 4PL service provider, we share knowledge, experience and information in the interests of transparency in order to achieve optimum cooperation.
